Re: Freedom of Information Act Request for Copies of All Documents
Regarding Richardson Flat Tailings Site Not Included in the Superfund
Docket at EPA Headquarters as of October 6, 1994

Dear Freedom of Information Officer:

Pursuant to the Freedom of Information Act (5 U.S.C. § 552 et seq.) and its implementing regulations, I am formally requesting copies of all documents regarding the Richardson Flat Tailings Site, Summit County, Utah (including documents from or to Larry Reed, Director, Hazardous Site Evaluation Division; Richard J. Guimond, Acting Assistant Administrator, USEPA; Robert L. Duprey, Director, Hazardous Waste Management Division, USEPA Region VIII; and Elliott P. Laws, Assistant Administrator, USEPA) which were not included in the Superfund Docket at USEPA Headquarters, 401 "M" Street, SW, Washington, D.C., as of October 6, 1994.

On October 6, 1994, I reviewed the Superfund Docket for the Richardson Flat Tailings Site in the Superfund Docket room at USEPA Headquarters in Washington, D.C. I found that very few of the documents generated by the Hazardous Site Evaluation Division of EPA and others regarding the site were included in this file. Consequently, I am filing this Freedom of Information Act request in order to review these additional documents regarding the Richardson Flat Tailings Site.

If the documents responsive to this request number over 100 pages, I would appreciate your contacting me with regard to the index for such documents so that we can make arrangements for appropriate copies to be made and for payment for the same.

Please advise me if you should have any questions regarding my request.
